Greeting

Welcome to HANSOLTEX

HANSOLTEX is Korean contemporary weavers for window coverings

From modest beginnings, we now export to clients in over 40 countries. Our Designs include 3D-pattern, Combi (Zebra) and various other quality roller blinds. And we offer our high-quality products at extremely competitive prices.

At HANSOLTEX, we take our credibility very seriously. That's why we are very proud of the various products patents and accreditations we have been awarded.

Furthermore, By Producing Eco-Fabrics (Green Guard certified), we care about the environment and customer's health as a Green company.

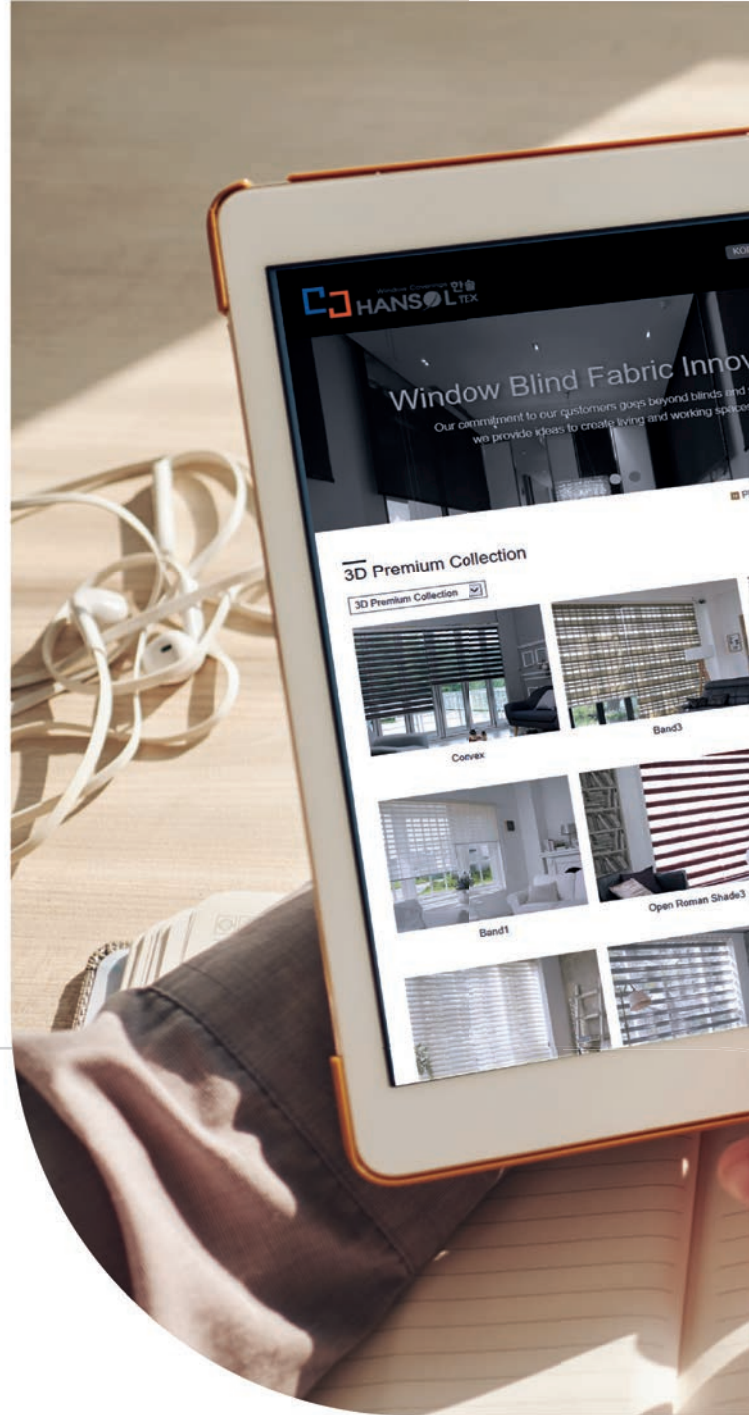

We always do our best every moment to provide the highest quality products to the global market continuously.

For any questions or suggestions, please do not hesitate to contact us, as we will do our best to be of assistance to you. Alternatively, feel free to visit our website at www.hansoltex.com for more information, and also you can find us at @hansoltex in Instagram.

Thank you so much for your attention.

ABOUT US

HANSOLTEX is committed to various values such as customer satisfaction, eco-friendly, and innovation to develop into a global textile company.

Our vision

Quality Assurance, QA

We strive to meet the needs of our customers by producing products of only the very best quality and design.

CSR (Corporate Social Responsibility)

We operate an enterprise under a sustainability development program (CSR) that values issues concerning corporate social responsibility while complying with social regulations, environmental sustainability and corporate responsibility.

Trustworthy company

At HANSOLTEX we are dead set on developing into a global textile company based on stable business operations and responsible partnerships.

Development

HANSOLTEX strives to stay at the forefront of the window coverings industry. We achieve this through meticulous planning, continuous product development and detailed quality control.

01

We regularly consult with our clients to get their input on new product development.

02

Sample production of prototypes with collected data and hundreds of weaving tests.

03

Product performance test and acquired certification management through authorized Institution.

04

ISO-based Working Standard for Mass Production of Prototypes and the Production Facility Setting.

Export to

Export to **40 Countries**

We have partnerships with major companies in more than 40 countries around the world. Our top priority is to grow and develop together with our partners, and we are always looking for good partners who have the potential to grow together in the future.

Product view

Through the combination of High technology, innovation and adaptability, HANSOLTEX offers a diverse product selection that will satisfy your needs.

- 3D Collection
- DimOut Collection
- Dual Collection
- Poly-Screen Collection
- Energy Savings Collection

01

3D Collection

3D Pattern offers an innovative decorative design and functionality through a unique Three-dimensional structure. Its unique 3D structure makes cleaning easier than existing products, and not only has a better three-dimensional and openness, but also gently filters light to create beautiful shadows. This offers very natural wood look patterns and keeping your privacy simply by the control code.

DimOut Collection (Non-coated)

Dimout is the material not only for privacy but also for offering inside space independent mood according to it's purpose. All products in this collection are uncoated and have a soft texture of the fabric but have the same light blocking efficiency as coating products. This collection introduces several different type of Blackout fabrics.

Pastel

03

Dual Collection

Non-coated interchanging sheer and opaque vanes with a light texture for unique and contemporary design. Dual is a highly functional product. This fabric easily can be matched align the vanes at any level.

Eco Poly - Screen Collection

Eco Poly-Screen is such a variety of functional & environment friendly fabrics. This fabrics can make your space to be simple and modern style. With the most variety selection of choices you can find your style that suit you.

Energy Savings Collection

Energy Savings is energy efficient and offers UV protection and superior functionality by 2-layered metalized woven to limit the amount of light transmitted. This fabric is different to normal silver metalized coated product. We do not use harmful chemical polymer on blinds for your safe space, but provide fabric with a soft texture by using high-efficiency aluminum yarn on the back of the fiber.
