INFORMATION

ABOUT UNISLAT

UNISLAT is a hybrid product with the soft and cozy mood of curtains and the refined and convenient features of vertical blinds, made up for the shortcomings of curtains and vertical blinds. The fabric consisting of high-quality knitted fabric and mesh parts is not made up of a one fabric like a curtain, but each 41cm wide fabric is made of independent slat. Each slat moves only through the rail at the top, so it is very light than the existing curtain and can be adjusted very simply by operating the handle rod.

In addition, since the separated fabric is not connected like a vertical blind, it is possible to create space such as separating space and blocking the view by moving as many slats as you want. Unlike the cold and sharp image of the vertical blind, this product is a curved, voluminous fabric structure that fits well with all spaces in the home and office.

Easy operation using handle rod

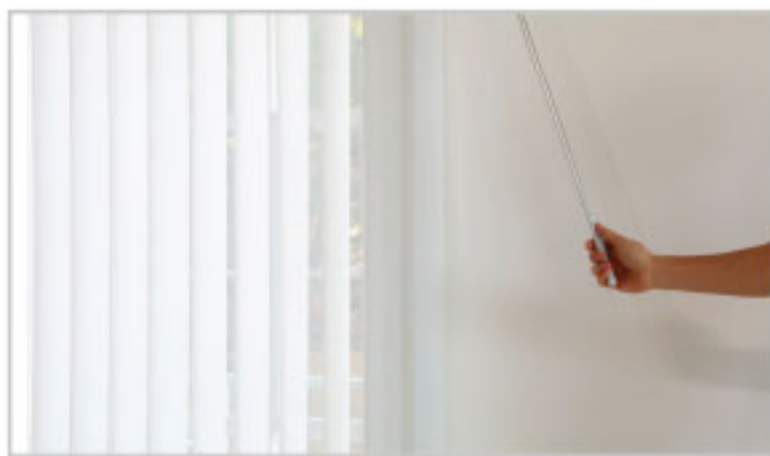

Turning the 'handle rod' 180° left and right

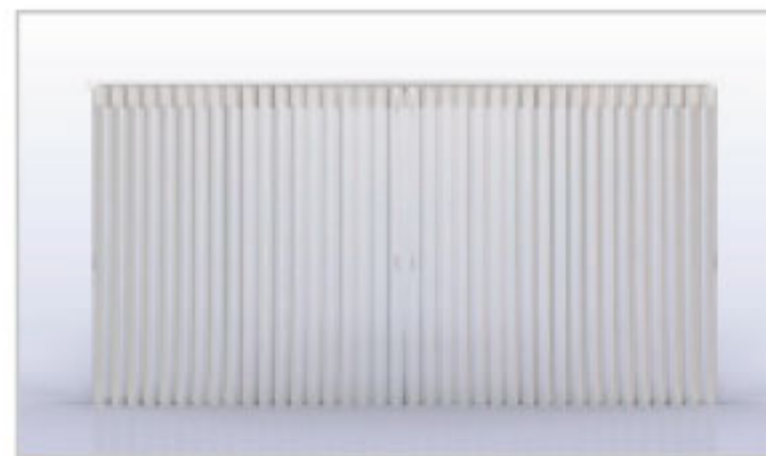

Turning the 'handle rod' 180° left and right

You can easily adjust the angle of each slat by turning the 'handle rod' 180° left and right. Each slat consists of mesh and fabric, so it is possible to adjust the external field of view while the UNISLAT is closed.

Free view, free design

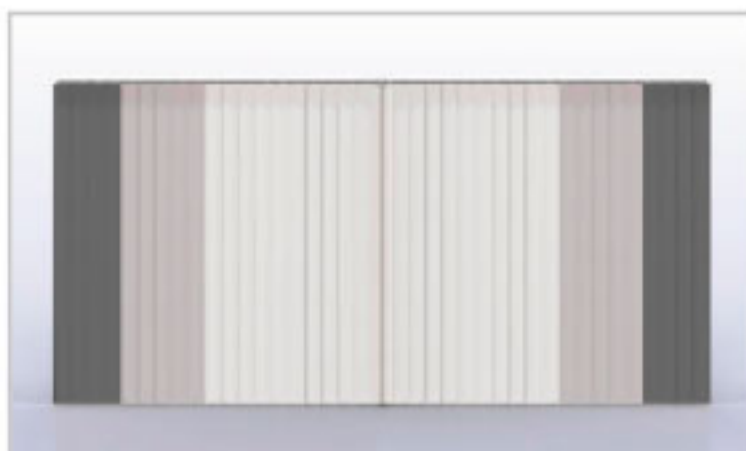

Open on both sides

External visibility with curtain closed

Adjustment of handle rod to block the view

Design change of each detachable slat

Biggest advantage of UNISLAT is that it is possible to adjust the field of view and change the design partially as desired. The entire fabric can be moved to both or one side, and open view and privacy can also be selected in a closed state. Detachable independent slats are the most effective items for management, such as design changes and partial laundry, and will help you create an economical and imagined design.

UNISLAT NATURAL. D

NATURAL.D_SMOKE

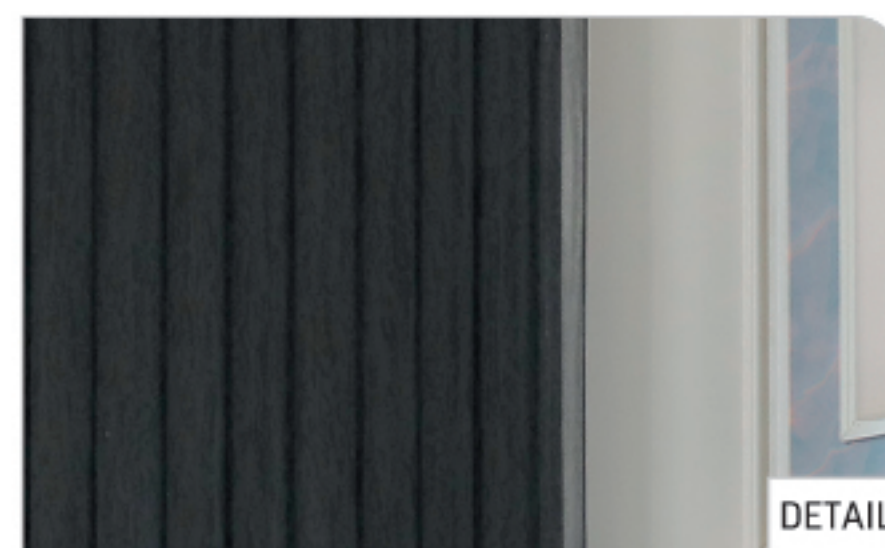

"UNISLAT_NATURAL. D" is a hybrid product with the soft and cozy mood of curtains and the refined and convenient features of vertical blinds, made up for the shortcomings of curtains and vertical blinds. The fabric consisting of high-quality knitted fabric and mesh parts is not made up of a one fabric like a curtain, but each 41cm wide fabric is made of independent slat. Each slat moves only through the rail at the top, so it is much lighter than the existing curtain and can be adjusted very simply by operating the handle rod. In addition, since the separated fabric is not connected like a vertical blind, it is possible to create space such as separating space and blocking the view by moving as many slats as you want. Unlike the cold and sharp image of the vertical blind, this product is a curved, voluminous fabric structure that fits well with all spaces in the home and office.

DETAIL

TECHNICAL PROPERTIES

Composition	Polyester 100%
Packing	50m/Roll ($\pm 5m$)
Other Features	F/R or NON F/R ANTIBACTERIAL
Solar reflectance	Woven_56.8, Mesh_13.7
Solar absorptance	Woven_31.6, Mesh_16.5
Solar transmittance	Woven_11.6, Mesh_69.8
Ultra violet blocking	UV-R : 99.1%, UV-A : 98.9%, UV-B : 99.4%
Ultra violet protection factor	50+, UV-A : 1.1%, UV-B : 0.6%

Colorfastness	Washing	Crocking	Perspiration	Light
	NATURAL. D	4.5 - 5	4.5 - 5	4.5 - 5
NORMAL	3 - 4	3 - 4	3 - 4	3 - 3.5

COLOR

· Color sample may not necessarily be an exact match of the material to be used to produce your order. Return will not be accepted due to minor variations of color or textile.

CARE & MAINTENANCE

1. Hand wash lightly in lukewarm water with a neutral detergent.
2. Never twist or scrub the fabric as it could stretch and warp.
3. Don't squeeze the water, Do a drip-dry only.
4. Do not use a hot dryer.
5. Do not Iron.

PRODUCT INFORMATION

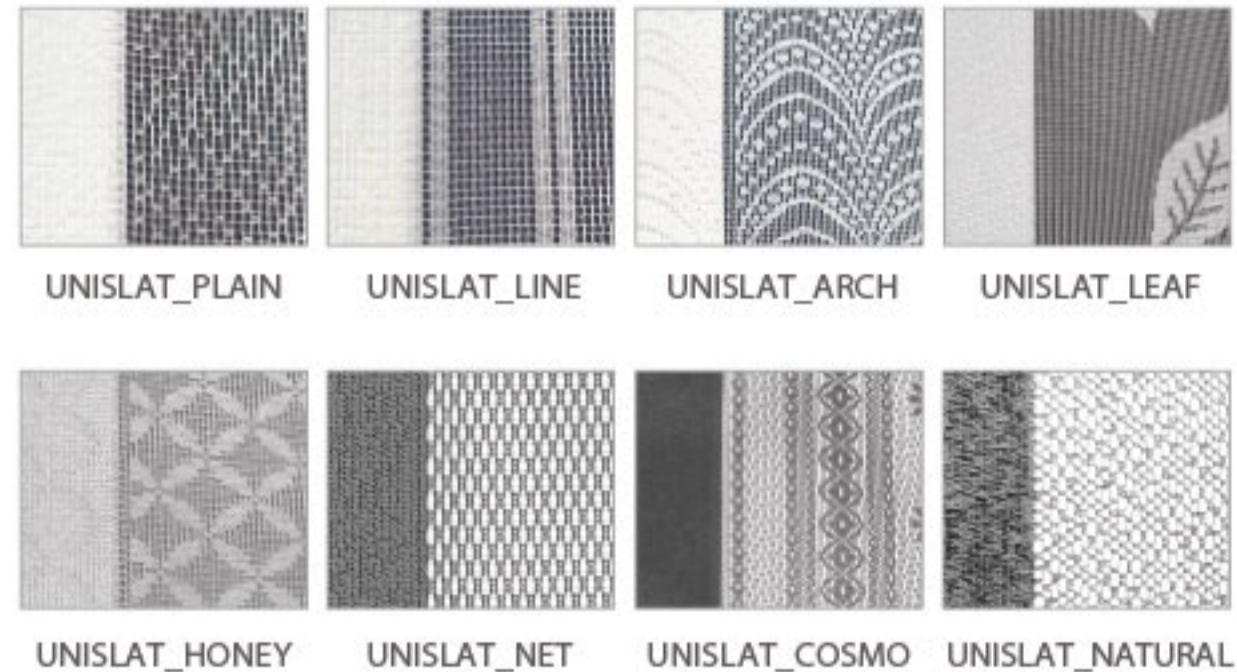

System Component * If you want to purchase all the systems, please contact us separately.

Fabric

Luxurious UNISLAT fabric is separated into independent slats with a width of 41cm and has 8 colors and 8 patterns. Independent slats are partially separated and can be mixed and matched in various colors and patterns desired by customers, making them economical and beautiful. In addition, it is an eco-friendly antibacterial processing and crease resistant finishing (NSR), prevent discoloration (CAR SEAT PREVENTS), and anti-contamination fabric.

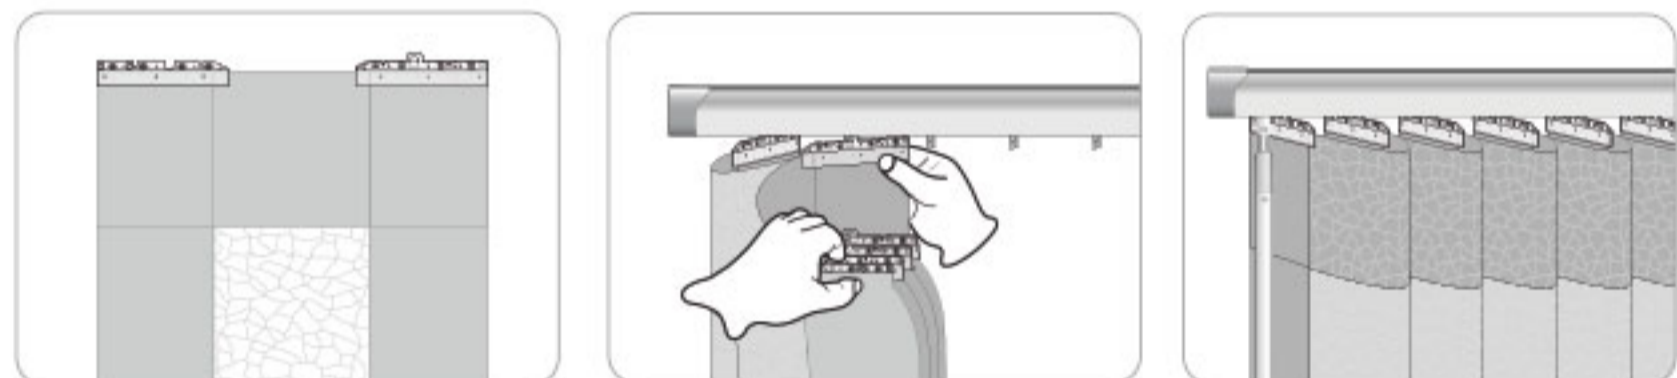

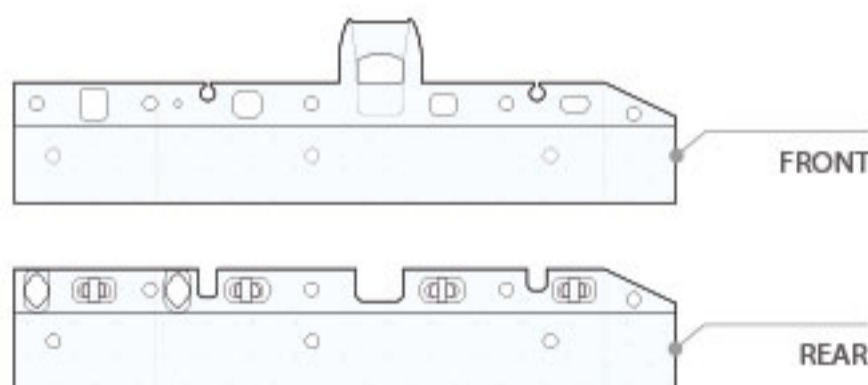

COLOR 8 colors | White, Off white, Ivory, Coffee, Grey, Dark grey, Black

SIZE 410 mm (Solid 120mm | Sheer 170mm)

Fabric hanger clip

The fabric hanger clip, which is responsible for the special function of the UNISLAT, connects and fixes each slat and helps it move freely. In addition, each slat is prevented from being disturbed so that it can have a rich shape like a curtain.

COLOR Transparent **MINIMUM ORDER** 5,000 set

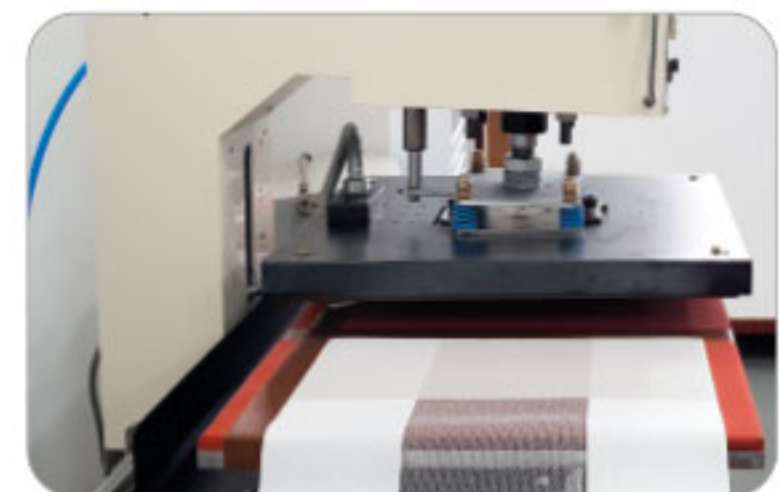

Connect the separated slats to each other by connecting the front clip and the rear clip of the "Fabric hanger clip" fixed to the top of each slat. Install each slat connected to each other by hanging at the connection point of the rail device. The Unislat clips are compatible with traditional rail devices and are easy to install.

Balance tape

COLOR 7 colors | Similar colors to fabric

SIZE 160mm x 100 m **MINIMUM ORDER** 10 rolls per color

The balance tape is attached to the fabric by applying heat of 180°C to the upper part of the fabric in order to maintain the shape and horizontality of the top end of the fabric in which the fabric hanger clip will be mounted.

Accessory machine

This is the basic equipment for UNISLAT production. Maximize your work efficiency with a fast, compact size, automated system. Please contact us separately for detailed specifications.

(1) Heat Press Machine (UNISLAT-PW-2022)

POWER 30Kw (50/60Hz AC220V)

SIZE L 900mm x W 800mm x H 1400mm , 70Kg

(2) Heat Cutting Machine (UNISLAT-CT-2022)

POWER 0.3Kw (50/60Hz AC220V)

SIZE L 1400mm x W 620mm x H 1250mm , 40Kg
